

OASIS CRESCENT

MANAGEMENT COMPANY LTD

ABRIDGED
ANNUAL
REPORT
2017

CHAIRMAN'S REPORT

Mr. Mohamed Shaheen Ebrahim

Dear Oasis Investor

It is my pleasure to present the financial statements of Oasis Crescent Management Company Ltd., for the period ending 31 March 2017. The past financial year can be characterized as having been an important year for South Africa and the world, dominated by a number of high profile events. This included the losses of great icons in Muhammad Ali and Ahmed Kathrada, who through their words and actions, have left us with a legacy of perseverance, self-belief, humility, kindness and the courage to fight for justice and equality. The outcomes of major political events such as "Brexit", the new US president and the upcoming ruling party's elective conference in South Africa, could shape the next decade of our socio-economic environment. At Oasis, we remain firm in our belief that government, business and society must actively work together to drive social progress and equality in the world we live in.

The Economy at a Glance

The South African economy has remained subdued over the past year due to tighter household credit conditions and various supply side shocks which have played out most severely in the agricultural and mining sectors. While aggregate household balance sheets have improved significantly since 2008, all of the improvement has been driven by the medium to high income segments of the economy. Despite the recent string of credit rating downgrades, South Africa's external and internal imbalances do appear to be on a medium term path towards sustainability, which may provide a more solid platform for long term growth improvement. Furthermore, a low base in the primary sector of the economy is likely to drive improved economic growth in the year ahead.

While South Africa is currently experiencing a period of low economic growth, we should not lose sight of the fundamental changes that democracy has brought to the majority of our population. Access to adequate housing, healthcare, water and sanitation for all South Africans is enshrined in the Bill of Rights. Between 1996 and 2011, poverty rates have declined from 35% to 17% of the population, access to piped water has increased from 80% to 90% while those households relying on candles for lighting has reduced from 28% of the total to 11% over the same period. Social grants have also played a stabilising role in the alleviation of poverty in the new South Africa with number of people receiving grants having increased from 4 million in 1994 to over

17 million in 2016. This growth in social grants however is unsustainable and effective solutions are needed to ensure reduced reliance on the state. The persistence of inequality despite our massive strides as a society means that much more still has to be done to ensure a higher quality of life for all South Africans.

Fund Highlights

We are pleased to highlight that we had launched the Oasis Crescent International Balanced Low Equity Feeder Fund during the past year, which offers our South African clients global market access without utilising their foreign investment allowance. The underlying investment of this feeder fund is the Oasis Crescent Global Low Equity Balanced Fund, which has earned Thomson Reuters Lipper Fund Awards in Switzerland and the UK during 2016 as the best USD balanced fund in its class over 3 years.

During the year, the Dividend Withholding Tax (DWT) rate changed from 15% to 20% effective 22 February 2017. The new 20% rate and legislation does not only apply to Local Dividends, as it was previously the case, but to Foreign Dividends as well where the foreign company is listed on the JSE. All changes required to the system were implemented successfully. In addition to this, the Effective Annual Cost (EAC) disclosure document was implemented successfully providing enhanced cost disclosure to all our clients.

In Conclusion

At Oasis, we pride ourselves in having built our track record on the back of a powerful investment philosophy. Steadfastly committed to the protection and long term growth of our clients' wealth, we aim always to deliver consistent real returns, so that our clients' standard of living is effectively safeguarded over time. We do this through the determined identification of high quality yet undervalued investments across the global and domestic financial markets. Our focus on protecting and growing the real wealth of our clients underpins our position as a leading global wealth manager.

I would like to take the opportunity to thank our Board members, staff and all our loyal clients for all your contributions and support. We will continue to strive to serve our clients long term financial needs through our consistent application of our low volatility investment philosophy. The past two decades has borne testimony to this philosophy with our clients who have been invested in the Oasis funds, having benefitted substantially. We remain committed to delivering sustained excellence across performance, administration and service to all our clients.

Mohamed Shaheen Ebrahim
Chairman

CHIEF INVESTMENT OFFICERS REPORT

Mr. Adam Ebrahim

Dear Oasis Investor

In view of the significant structural shifts within the global political landscape, we at Oasis believe that it is important to maintain our focus on the basic framework of long term investment success. In practice, short term market movements can cloud the judgment of even the most disciplined of investors, and in these moments it becomes vital that a coherent and proven investment philosophy is strictly adhered to. At Oasis, we pride ourselves in having built our track record on the back of a simple yet powerful investment philosophy. Steadfast in our commitment to safeguard our clients' wealth, we aim to deliver positive real returns over the long term so that our clients' standard of living is well protected over time. When gauging investment performance, it is equally important to distinguish between short term and long term trends in the growth of one's underlying portfolio. Often, a pervasive sense of short termism can impede the ability of investment managers to act in the best interests of clients. However, with a long term perspective, the sustainability of returns becomes increasingly important, as the passage of time is more likely to see competitive investments emerge ahead of the pack, while weaker investments are far less likely to become outperformers.

Those who are focussed on tightly tracking a specific market index may thus be incentivised to include inherently unsustainable investments in their portfolio, with the simple objective of ensuring that portfolio returns do not deviate too far from the benchmark. At Oasis, our focus is rather on maximising the real wealth of our clients. In this way, we avoid unsustainable investments in the interest of improving their standard of living tangibly over time. This, we believe, is the fundamental measure of real investment success.

The Economy at a Glance

Growth in advanced economies has remained relatively stable over the past year despite recent increases in policy uncertainty. In the US, growth and labour market statistics have indicated that steady economic conditions persist in the country, while the Euro area economy is expected to expand by 1.7% in the year ahead,

close to its long run potential. In emerging markets (EM) a number of structural changes continue to develop, including those taking place in China, where the government is pursuing a host of supply-side reforms. In the past year however, China has stimulated its economy somewhat through fiscal and monetary measures, which has stabilised growth expectations for 2017. Furthermore, a number of EM economies, such as Russia and Brazil are emerging from deep recessions, which is likely to prop up global growth to some extent.

With this backdrop, the South African economy has performed significantly below its long term potential over the past year, as tighter household credit conditions, elevated food inflation and various supply side shocks in the agricultural and mining sectors imposed major constraints on the rate of GDP expansion. This challenging economic environment together with uncertainties around the political landscape in South Africa has contributed to our sovereign credit rating being downgraded by all three major rating agencies. Nevertheless, the first quarter of 2017 saw GDP growth come in at 1.0% from a year earlier, despite the technical recession. Most economists also expect that a recovery in the primary sector of the economy combined with a lower inflation trajectory is likely to result in 2017 GDP growth being moderately better than the prior year.

Your Funds

Despite the domestic economic weakness the rand has appreciated by over 20% in trade weighted terms since its sharp depreciation during the first quarter of 2016. With increasing political and economic uncertainty globally, we do anticipate higher levels of volatility in financial markets during the course of this year. This however can provide great investment opportunities, as we have experienced over the past 20 years. Indeed, through our determined identification of high quality yet undervalued investments across the global and domestic financial markets, we remain committed to protecting and growing the real wealth of our clients over the long term. The regulatory environment continues to evolve with greater levels of oversight anticipated to be introduced in the foreseeable future with a focus on protecting clients. We welcome these regulatory changes which protect the industry and very importantly, are in the best interests of our clients.

In Conclusion

Oasis is proud of our leading Global Wealth Management brand, and having built on our strong track record of delivering excellence, we received further acknowledgement this financial year for the Oasis Crescent Global Low Equity Balanced Fund, which was recognized for its performance in United Kingdom. Later in the year the Fund also received the award for Mixed Asset Fund of the Year at the 2016 Global Fund Awards, adding to a growing list of performance accolades. Throughout the years to come, the Oasis team will continue to have an unwavering commitment to delivering excellence in service, administration and superior investment performance in an ethical manner and within a highly regulated environment.

With kind regards,

Adam Ebrahim
Chief Investment Officer

CHIEF REGULATORY OFFICERS REPORT

Mr. Nazeem Ebrahim

Dear Oasis Investor

As the Executive Director responsible for Legal and Regulatory matters it is my pleasure to once again advise our clients of the recent developments in the regulatory landscape which impact Oasis. The Oasis culture of legal, regulatory and business compliance is closely linked to the values of social responsibility, integrity, transparency and accountability.

Regulatory Overview

The Board remains committed to complying with all legislation and regulations applicable to it. The Oasis culture of compliance is linked to the values of the group, including social responsibility, integrity, transparency and accountability.

As part of the Board's commitment it continues to engage with the various Regulators regarding the developments in the legislative environment such as the Conditions for Registration and Determination of Fit and Proper Requirements for Directors and Senior Management.

We support the FSB's endeavours to Treating Customers Fairly ("TCF") and as such we have embedded the outcomes into our business process. We confirm that treating customers fairly is central to our culture. Further initiatives aimed at enhancing the protection and fair treatment of investors include the FSB's Retail Distribution Review (RDR), and the transition to the Twin Peaks regulatory model, this will see the establishment of a prudential regulator alongside a dedicated market conduct regulator. Our commitment is to continue our engagement with the regulator and industry bodies in shaping such initiatives.

Within the control environment our focus includes evaluating the impact of cybercrime. The Group has always strived to be at the forefront of risk management and compliance and has in place various policies and procedures which are designed to ensure that the Group is not vulnerable to any form of cyber-attack. Given recent international events and the focus being placed on cyber security by various regulators, the Group has formally established a Cyber Security Committee which is tasked with, inter alia, reviewing all such policies and procedures to ensure that they remain current and effective in the ever changing cyber environment, thereby ensuring that, as far as is reasonably possible, the information technology systems of the Group

remain secure and that the information of the clients of the Group remains secure and confidential.

Corporate Governance

The Board of OCMC is committed to achieving the highest standards of corporate governance, as a key component of its vision and growth strategy, and ensuring the long-term sustainability of the Group. The Board seeks to maintain strong corporate governance structures and processes by working within a clearly defined governance framework.

The Directors of OCMC understand that ethical conduct and good corporate citizenship underpin Board Notice 910 of 2010 and the King IV code, where leadership is expected to shape business strategy and operations thereby ensuring long-term sustainability. Further to that, the board of OCMC and the management team recognize the need to conduct the business of the Funds with integrity and in accordance with generally acceptable corporate practices. The Directors of OCMC subscribe to the principles of timely, honest and objective communications and the highest standards of ethics in the conduct of its business.

Social Responsibility

Given that, OCMC forms part of a group of companies operating principally in the financial services industry, the directors of OCMC and the directors of the ultimate holding company of OCMC (being Oasis Controlling Company (Pty) Ltd. (OCC)) recognises that the Group has a fiduciary duty to act in the best, long-term, interests of its clients and that environmental, social, and corporate governance (ESG) issues can affect the performance of investment portfolios (to varying degrees across companies, sectors, regions, asset classes and through time). The Group has accordingly always subscribed to the highest codes of good corporate governance and has always conducted itself as a socially and ethically responsible corporate citizen.

In amplification, the Group has an ongoing relationship with various public benefit organisations (PBO), including the Oasis Crescent Fund Trust. It is through the PBOs that the Group (and its clients who invest in ethical products) contributes meaningfully to the development of communities and through which resources and energy is focused on enhancing some of the most challenging areas facing our country today – education, healthcare and social development.

Further, independent oversight, over investment decisions, is undertaken by the Oasis Group Shari’ah Advisory Board. OCMC fully subscribes to global best practice governing Islamic investment business as detailed by the Accounting and Auditing Organisation for Islamic Financial Institutions.

Conclusion

It has always been and still remains Oasis's commitment of protecting and delivering growth on your investment portfolio. Through our current processes and procedures we are confident that we will continue to meet our commitment to you, our clients. We value the trust that you have placed with us and we thank you for your confidence and support of our business. I also express my sincere appreciation to our Board of Directors, management and staff for their tireless efforts of delivering on our commitments to our investors.

With kind regards,

Nazeem Ebrahim
Chief Regulatory Officer

INDEPENDENT AUDITORS REPORT

To the Unitholders of Oasis Balanced Stable Fund of Funds, Oasis Balanced Unit Trust Fund, Oasis Bond Unit Trust Fund, Oasis Crescent Balanced High Equity Fund of Funds, Oasis Crescent Balanced Progressive Fund of Funds, Oasis Crescent Balanced Stable Fund of Funds, Oasis Crescent Equity Fund, Oasis Crescent Income Fund, Oasis Crescent International Feeder Fund, Oasis Crescent International Property Equity Feeder Fund, Oasis General Equity Unit Trust Fund, Oasis International Feeder Fund, Oasis Money Market Unit Trust Fund, Oasis Property Equity Unit Trust Fund and Oasis Crescent International Balanced Low Equity Feeder Fund.

Our opinion

In our opinion, the financial statements of the above Portfolios managed by Oasis Crescent Management Company Limited for the year ended 31 March 2017 are prepared, in all material respects, in accordance with the basis of accounting described in note 1 to the financial statements.

What we have audited

The entities' financial statements set out on pages 11 to 25 comprise:

- the statement of financial position as at 31 March 2017;
- the statement of comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Portfolios in accordance with the Independent Regulatory Board for Auditors Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (Parts A and B).

Emphasis of Matter – Basis of Accounting

We draw attention to note 1 to the financial statements, which describes the basis of accounting. The financial statements are prepared

in accordance with the Portfolios' own accounting policies to satisfy the financial information needs of the Portfolios' unitholders. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Other information

The directors of Oasis Crescent Management Company Limited are responsible for any other information. The other information comprises the Trustee Report, the Quarterly review of fluctuations in unit prices, Distribution to unitholders and Creation and cancellation of units notes as attached in the supplementary information. Other information does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial statements

The directors of Oasis Crescent Management Company Limited are responsible for the preparation of the financial statements in accordance with the basis of accounting described in note 1 to the financial statements and the requirements of the Collective Investment Schemes Control Act of South Africa, for determining that the basis of preparation is acceptable in the circumstances and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Portfolios' ability to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Portfolios or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Portfolios' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Portfolios' ability to continue as going concerns. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Portfolios to cease to continue as going concerns.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

TRUSTEES REPORT

UPDATE

OASIS CRESCENT MANAGEMENT COMPANY LIMITED TRUSTEES REPORT

for the year ended 31 March 2017

OASIS CRESCENT EQUITY FUND UNIT TRUST SCHEME

We, the Standard Bank of South Africa Limited, in our capacity as Trustee of the Oasis Crescent Equity Fund Unit Trust Scheme ("the Scheme") have prepared a report in terms of Section 70(1)(f) of the Collective Investment Schemes Control Act, 45 of 2002, as amended ("the Act"), for the financial year ended 31 March 2017.

In support of our report we have adopted certain processes and procedures that allow us to form a reasonable conclusion on whether the Manager has administered the Scheme in accordance with the Act and the Scheme Deed.

As Trustees of the Scheme we are also obliged to in terms of Section 70(3) of the Act to satisfy ourselves that every statement of comprehensive income, statement of financial position or other return prepared by the Manager of the Scheme as required by Section 90 of the Act fairly represents the assets and liabilities, as well as the income and distribution of income, of every portfolio of the Scheme.

The Manager is responsible for maintaining the accounting records and preparing the annual financial statements of the Scheme in conformity with generally accepted accounting practice. This responsibility also includes appointing an external auditor to the Scheme to ensure that the financial statements are properly drawn up so as to fairly represent the financial position of every portfolio of its collective investment scheme are in accordance with generally accepted accounting practice and in the manner required by the Act.

Our enquiry into the administration of the Scheme by the Manager does not cover a review of the annual financial statements and hence we do not provide an opinion thereon.

Based on our records, internal processes and procedures we report that nothing has come to our attention that causes us to believe that the accompanying financial statements do not fairly represent the assets and liabilities, as well as the income and distribution of income, of every portfolio of the Scheme administered by the Manager.

We confirm that according to the records available to us, no losses were suffered in the portfolios and no investor was prejudiced as a result thereof.

We conclude our report by stating that we reasonably believe that the Manager has administered the

Scheme in accordance with:

- (i) the limitations imposed on the investment and borrowing powers of the manager by this Act;
- (ii) and the provisions of this Act and the deed;

OASIS CRESCENT INCOME FUND

The Oasis Crescent Income Fund is a Shari'ah compliant fund. The Oasis Crescent Income Fund is a specialist income portfolio. The primary objective is to provide income from the underlying investments. To achieve this objective, the portfolio consists of a combination of South African and global short-term, medium-term and long-term income generating securities permitted by the Collective Investment Schemes Control Act under Notice 90 of 2014. The portfolio may also include participatory interests or other forms of participation in collective investment scheme portfolios where such collective investment scheme portfolios are generating periodic income flows. Where the aforementioned portfolios are operated in territories other than South Africa, participatory interests or other forms of participation in these portfolios will be included in the portfolio only where the regulatory environment and investor protection provided is of an international standard and is to the satisfaction of the manager and trustee. The trustee ensures that the investment policy set out in the supplemental deed is carried out.

OASIS CRESCENT BALANCED HIGH EQUITY FUND OF FUNDS

The Oasis Crescent Balanced High Equity Fund of Funds is a general, asset allocation prudential portfolio. The objective is to provide moderate capital appreciation and income will be incidental to the objective. The portfolio is based on a selection of underlying investments that comply with moral and ethical considerations. To achieve this objective, the portfolio is well diversified by asset class in accordance with prudential investment regulations. The portfolio has a high equity and property equity exposure commensurate with that typically displayed by a South African multi asset high equity portfolio in accordance with the ASISA standard for fund classification for South African regulated collective investment portfolios.

OASIS CRESCENT INTERNATIONAL BALANCED LOW EQUITY FEEDER FUND

The investment objective of the Oasis Crescent International Balanced Low Equity Feeder Fund is to provide medium to long-term growth in a jurisdiction other than its country of origin and to invest in securities that are Shari'ah compliant. The Oasis Crescent International Balanced Low Equity Feeder Fund will consist of capital and income solely of participatory interest in a single portfolio of a global offshore balanced portfolio, namely the Oasis Crescent Global Low Equity Balanced Fund, (a sub fund of the Oasis Crescent Global Investment Fund (Ireland) plc., managed by the Oasis Global Investment Management Company (Ireland) plc.), which is Shari'ah compliant.

The scheme portfolio will include participatory interests, or other forms of participation in a single collective investment scheme portfolio. Where the aforementioned scheme is operated in a territory other than South Africa, participatory interests or any other form of participation in these schemes will be included only where the regulatory environment is, to the satisfaction of the manager and the trustee, of a sufficient standard to provide investor protection at least equivalent to that in South Africa.

LEGAL, REGULATORY AND COMPLIANCE DISCLOSURES

Statutory Information

Collective Investment Schemes (CIS) in Securities are generally medium to long-term investments. The value of participatory interests may go down as well as up, and past performance is not necessarily a guide to the future. Participatory interests are traded at ruling prices and a portfolio can engage in borrowing and scrip lending. Commission and incentives may be paid, and if so, would be included in the overall costs. A Fund of Funds portfolio invests in other CIS' which may levy their own charges. This could result in a higher fee structure for these portfolios. A Feeder Fund portfolio only invests in the participatory interests of a single CIS, apart from assets held in liquid form. The Oasis Money Market Fund aims to maintain a constant price of 100 cents per unit. The total return to the investor is primarily made up of interest received but may also include any gain or loss made on any particular investment held. In most cases this will have the effect of increasing or decreasing the daily yield, but in some cases, for example in the event of a default on the part of an issuer of any instrument held by the fund, it can have the effect of a capital loss. Such losses will be borne by the Oasis Money Market Fund and its investors and in order to maintain a constant price of 100 cents per unit, investors' unit holdings will be reduced to the extent of such losses. Collective Investment Schemes may borrow up to 10% of the market value of the portfolio where insufficient liquidity exists in a portfolio, or where assets cannot be realised to repurchase or cancel participatory interests.

Charges

Different classes of units apply to some of the Company funds, which are subject to different fees and charges. A schedule of fees and charges and maximum financial advisory fees is available on request from the Oasis Crescent Management Company Ltd., ("Company") and on the Company website (www.oasiscrescent.com). CIS prices are calculated on a net asset value basis, which is the total book value of all assets in the portfolio divided by the number of participatory interests in issue. CIS prices may fluctuate relative to the market value of the securities comprising the relevant fund. Should a portfolio have underlying offshore investments, fluctuations or movements in exchange rates may cause the value of underlying offshore investments to go up or down. Permissible deductions from the total portfolio may include bank charges, trustee/custodian fees, auditors' fees, Shari'ah compliance charges, service charges of the manager, securities transfer tax (STT) and brokerage fees. With respect to the portfolios and classes of participatory interest, the Total Expense Ratio (TER) is cited near the performance table of each fund. For the period 1 January 2014 to the period 31 December 2016, the TER percentage of the average Net Asset Value (NAV) of the portfolio were incurred as charges, levies and fees related to the management of the portfolio. The ratio does not include transaction costs. A higher TER ratio does not necessarily imply a poor return nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. The TERs indicated do not include a performance fee, as there was no performance fee history.

An annual portfolio management fee is payable to the Investment Manager. The base fee charge is 1% per annum (excl VAT). Performance fees are payable in the case of outperformance of the underlying portfolio, relative to its benchmark. The sharing ratio of the performance fee is 20% of the outperformance, and the total fees are capped at 3%. This fee is calculated and accrued daily, based on the daily market value of the Investment Portfolio, and paid to the Investment Manager on a monthly basis. No other fees are charged. In the case of the Oasis Crescent Income Fund and the Oasis Money Market Fund there is no performance fee applicable. A fixed fee of 0.5% per annum will be charged and is calculated and accrued daily based on the daily market value of the investment portfolio and paid to the investment manager on a monthly basis. For a full disclosure on performance fees FAQs and Charges visit www.oasiscrescent.com.

The buying price of participatory interests may include an initial advisor's fee of up to a maximum of 3% deducted prior to each investment being made (Where the ongoing fee is greater than 0.5% then the initial fee is limited to 1.5%). The ongoing advisor fee is subject to a maximum of 1% per annum of the investment account (Where the initial fee is more than 1.5% then the maximum ongoing fee is 0.5%). Advisor fees are negotiated independently between the unit holder and the financial advisor. Fees are paid by way of realizing units from the Investment Portfolio of the Investor in accordance with the instructions provided by the Investor. If, during the term of investment, the Financial Advisor fees are renegotiated, or where the fee is negotiated for an additional investment and this is different to the fee currently being paid, then the adjusted fee will apply across the whole Investment Portfolio. The Management Company reserves the right to determine the limits set with regard to Financial Advisors' Fees. The Investor is entitled to change the Financial Advisor subject to acceptance by the Management Company of the relevant forms.

Cut off times

All portfolios are valued daily at approximately 15h00 (South African time). All investment, redemption and switching instructions with the necessary documentation received after 10h00 on any day shall be processed on the following day (excluding weekends and public holidays). Forward pricing is used. The Company reserves the right to close portfolios from time to time in order to manage them more efficiently and in accordance with their mandates.

Tax

A transfer of units to another legal entity or natural person will result in a payment of Capital Gains Tax (excluding transfers from the Oasis Money Market Fund). Institutional investors should note that, compared to retirement funds, CIS scheme portfolios operate under different tax rules. While CIS scheme portfolios in practice are not taxed, they do not enjoy an automatic tax exemption.

Global Funds

A prospectus is available on request from Oasis Crescent Management Company Ltd. The global funds, Oasis Crescent Global Equity Fund; Oasis Global Income Fund; Oasis Crescent Global Income Fund; Oasis Crescent Global Property Equity Fund; Oasis Global Equity Fund; Oasis Crescent Global Medium Equity Balanced Fund and the Oasis Crescent Global Low Equity Balanced Fund are regulated by the Central Bank of Ireland and are registered for sale and distribution in South Africa with the Financial Services Board. Oasis Crescent Global Investment Fund (Ireland) plc and Oasis Global Investment Fund (Ireland) plc ("the Funds") are Undertakings for Collective Investment in Transferable Securities (UCITS). The Fund and its Sub-Funds are regulated by the Central Bank of Ireland and are registered with the Financial Services Board for distribution in the Republic of South Africa.

Oasis Crescent Management Company Limited

Oasis Crescent Management Company Ltd., is a member of the Association for Savings and Investment South Africa (ASISA).

Oasis Crescent Management Company Ltd. is registered and approved in terms of the Collective Investment Schemes Control Act, 2002. Investment performance is for illustrative purposes only and is calculated by taking the actual initial fees and all ongoing fees into account for the amount shown and the income is reinvested on the reinvestment date. The manager has a right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. This Minimum Disclosure Document is published quarterly. Additional investment information (including brochures, application forms, annual and half-yearly reports) can be obtained free of charge from Oasis. Oasis Crescent Capital (Pty) Ltd. is the investment management company of the manager and is authorized under the Financial Advisory and Intermediary Services Act, 2002 (Act No.37 of 2002). Data are sourced from Oasis Research using I-Net Bridge (31 March 2017). Kindly note that this is not the full Terms and Conditions. To view the latest Terms and Conditions please visit www.oasiscrescent.com.

Investor Communication

Statements are sent to all unit holders on a bi-annual basis. Copies of the audited annual statements of the Company and of the CIS schemes portfolios administered by the Company are available, free of charge, on request by any investor.

Each investor is allowed to make one free switch between the Oasis funds in a given calendar year. This however excludes switches made out of the Oasis Money Market Fund and Oasis Bond Fund, where a differential fee will apply. However, any subsequent switches for that year will attract a charge of 0.25% on the market value of the amount switched.

All information and opinions provided are of a general nature and the document contains no express or implied recommendation, warranty, guidance, advice or proposal that the product is appropriate to the investment objectives, financial situation or needs of any individual or entity.
