

Oasis boasts excellent returns

By BUSINESS WRITER

Oasis Group Holdings announced that both its global equity funds retained their coveted AA rating from Standard & Poor's Fund Management Ratings.

Standard & Poor's is the world's foremost provider of independent credit ratings, indices, risk evaluation, investment research, data and valuations.

These ratings reflect the consistently good returns that the Shari'ah compliant Crescent Global Equity Fund and the conventional Oasis Global Equity Fund have produced since their inception in 2000.

"We have high regard for Oasis's chief executive officer, Adam Ebrahim and are encouraged by the process and team structure he has built at Oasis," reads the August Standard & Poor's report.

Feeder funds that invest in these global funds have been registered in Malaysia and in South Africa.

This global expansion has been facilitated by the market's recognition that Oasis is a manager that provides investors with superior levels of performance.

The group said the Crescent Global Equity Fund and Oasis Global Equity Fund had provided cumulative returns over five years of 121% and 127.5% respectively, compared to 75.5% sector median return.
