Investment Objective and Policy

The Oasis Crescent Income Fund is a Shari'ah compliant fund. The Oasis Crescent Income Fund is a specialist income portfolio. The primary objective is to provide income from the underlying investments. To achieve this objective, the portfolio consists of a combination of south african and global short-term, medium-term and long-term income generating securities permitted by the Collective Investment Schemes Control Act under Notice 90 of 2014.

The portfolio may also include participatory interests or other forms of participation in collective investment scheme portfolios where such collective investment scheme portfolios are generating periodic income flows. Where the aforementioned portfolios are operated in territories other than South Africa, participatory interests or other forms of participation in these portfolios will be included in the portfolio only where the regulatory environment and investor protection provided is of an international standard and is to the satisfaction of the manager and trustee. The Trustee ensures that the investment policy set out in the supplemental deed is carried out.

This document constitutes the minimum disclosure document and quarterly general investor's report

Cumulative Returns

Cumulative Performance	May-Dec 2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	YTD SEPT 2026	Return Since Inception

Source: IMF World Economic Outlook

The South African Economy continues to underperform with sluggish growth of 1.0% expected in 2026. The positive effect of the structural reforms continue to gain momentum and improving the supply side of the economy, especially the electricity, rail and port sectors. The results of Local government elections on the 4th of November 2026 will determine whether much needed reforms and improved leadership at the municipal level happens. Better leadership and management at the municipal level could be a major catalyst for sustained economic growth. The reform, supported by sound fiscal and monetary policy, could lead to further rating upgrades which would put South Africa on the brink of an investment grade rating. This will lower the cost of capital and increase the availability of capital, boosting the local economy and financial markets. In the short term, the negative impact of the Ukraine and West Asian wars, are pushing up fuel and food costs, raising inflation and interest rates and together with the anti-immigrant protests, it is slowing economic growth. With inland fuel prices currently at 3025 c/l and expected to rise further, the SA consumer will remain under pressure.

The key risks to the South African economy include, 1) geopolitical tension, 2) energy and food supply-chain disruptions, 3) higher inflation and interest rates, 4) the South African political environment becoming more unstable and the continued decline in local government performance, 5) high levels of corruption, 6) the anti-foreigner movement, 7) the end of macroeconomic reforms, resulting in infrastructure supply constraints and higher administered costs, 8) negative impact of tariffs on industries like automotive, 9) reversal of favorable commodity pricing and 10) the massive increase in Chinese imports putting pressure on the current account and manufacturing.

	20-Year Average CPI	Current CPI	Difference	5 year average central bank rates	Current Central Bank Rate	Decline in Central Bank Rate	Current Real Rate	20 Year Average Real Rate	Difference
USA	2.5	3.4	0.9	5.50	4.00	-1.50	0.60	-0,69	1.29
EU	2.1	3.2	1.1	4.50	2.65	-1.85	-0.55	-0.89	0.34
South Africa	5.5	4.4	-1.1	8.25	7.25	-1.00	2.85	1.19	1.66

Global bond yields troughed during February 2026, followed by significant increases, reflecting expectations of higher inflation, following the onset of the West Asian conflict and the disruption of energy- and food related commodity flows. This is driving changes to the outlook for interest rates, with central banks increasing rates. Supply chains will take time to recover, and the second-round impact on inflation, particularly food inflation, will be felt over a prolonged period.

The South African 10-year yield troughed at 8.0% during the first quarter and ended September 2026 at 9.2%, reflecting the shift in the inflation outlook. SA inflation troughed at 3%, rising 4.4% in August, with the South African Reserve Bank (SARB) forecasting inflation to peak at 5.0%. The SARB raised interest rates 50 bps with two 25 bps increases and rates could rise by another 50 bps. If SA inflation declines to target range and there is a rating upgrade, we could see the 10-year bond yields trade towards 7.0-7.5% and the SA Bond market remains attractive. The Oasis Crescent Income Fund's (OCINF) adjusted profit yield with monthly distributions reinvested is 8.18%. The portfolio is well diversified across geography, sector and instrument, with a focus on high-quality income-generating investments. OCINF has performed well and remains well positioned for the current volatile environment.

Risk and Reward Profile

The risk and reward indicator:
• The above risk number is based on the rate at which the value of the Fund has moved up and down in the past • The above indicator is based on historical data and may not be a reliable indication of the risk profile of the Fund • The risk and reward category shown is not guaranteed and may shift over time • The lowest category does not mean 'risk free'.

The Fund may also be exposed to risks which the risk number does not adequately capture. These may include:
• The value of stock market investments, and the income from them, will fluctuate. This will cause the Fund price to fall as well as rise and you may not get back the original amount you invested • Any investment in international companies means that currency exchange rate fluctuations will have an impact on the Fund • The Fund invests in a variety of geographic regions and countries. It is therefore exposed to the market sentiment of that specific geographic region or country. This level of diversification is appropriate to deliver on our objective to generate real returns at a lower volatility for our clients over the long term.

Fees and Charges*

Fee Type	Financial Advisor	Administrator	Investment Manager
Initial	No charge	No charge	No charge
Ongoing	The ongoing financial advisor fee is limited to 0.5%.	0%	0.5%

* Excluding VAT. No performance fees. A fixed fee of 0.5% per annum will be charged and is calculated and accrued daily based on the daily market value of the investment portfolio and paid to the investment manager on a monthly basis.

Total Expense Ratio

Class A of the portfolio has a Total Expense Ratio (TER) of 0.70% for the period from 1 July 2023 to 30 June 2026. 0.70% of the average Net Asset Value of the portfolio was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. The ratio does not include transaction costs.

Total Expense Ratio	0.70%	Service Fees	0.50%	Performance Fees	-	Other Costs	0.12%	VAT	0.08%

Disclaimer

This document is the Minimum Disclosure Document in terms of BN92 of 2014 of the Collective Investment Schemes Control Act, 2002 and also serves as a fund fact sheet. Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future.

Different classes of units apply to some of the Oasis Funds, which are subject to different fees and charges. A schedule of fees and charges and maximum commissions is available from the management company on request. Commission and incentives may be paid and if so, would be included in the overall costs. CIS are traded at ruling prices and forward pricing is used. CIS can engage in borrowing and scrip lending. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. No guarantee is provided with respect to capital or return.

Portfolios are valued at 15h00 daily. All necessary documentation must be received before 10h00. CIS are calculated on a net asset value basis which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions from the portfolio which may include brokerage, commissions, STT, auditor's fees, bank charges, trustee and custodian fees. CIS prices are available daily on www.oasiscrescent.com.

The manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Oasis is a member of the Association for Savings and Investment SA. The above portfolio performance is calculated on a NAV to NAV basis and does not take initial fees into account. Income is reinvested on the ex dividend date. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Figures quoted are from Micropal and IRESS for the period ending 30 September 2026 for a lump sum investment using NAV-NAV prices with income distributions reinvested.

All information and opinions provided are of a general nature and the document contains no express or implied recommendation, warranty, guidance, advice or proposal that the product is appropriate to the investment objectives, financial situation or needs of any individual or entity.

Oasis Crescent Management Company Ltd. is registered and approved in terms of the Collective Investment Schemes Control Act, 2002. Investment performance is for illustrative purposes only and is calculated by taking the actual initial fees and all ongoing fees into account for the amount shown and the income is reinvested on the reinvestment date. The manager has a right to close the portfolio to new investors in order to manage it more efficiently in accordance with its mandate. This Minimum Disclosure Document is published quarterly. Additional investment information (including brochures, application forms, annual and half-yearly reports) can be obtained free of charge from Oasis. Oasis Crescent Capital (Pty) Ltd. is the investment management company of the manager and is authorized under the Financial Advisory and Intermediary Services Act. 2002 (Act No.37 of 2002). Data are sourced from Oasis Research (30 September 2026). Kindly note that this is not the full Terms and Conditions. To view the latest Terms and Conditions please visit www.oasiscrescent.com.
