On resignation from the Fund your investment will be transferred to the Benefit Settlement Portfolio, pending the resolution of procedural matters and the approval of any regulatory bodies, including SARS. The Benefit Settlement Portfolio is part of the Fund and non-permissible income is disbursed by the Fund on behalf of members to a registered charitable institution in accordance with the Shari'ah principles of the Fund. The Benefit Settlement Portfolio protects the member against falls in the value of their investment. However, members also do not share in any potential growth in the Fund during the time their investment is held in the Benefit Settlement Portfolio. If your tax affairs are not in order, your money will remain in the benefit settlement until such time as you have resolved your tax affairs.
